

Custom Designed Grain and Bulk Material Handling Products

LOAD-OUT/ INGREDIENT BIN

LOAD-OUT/ INGREDIENT BIN

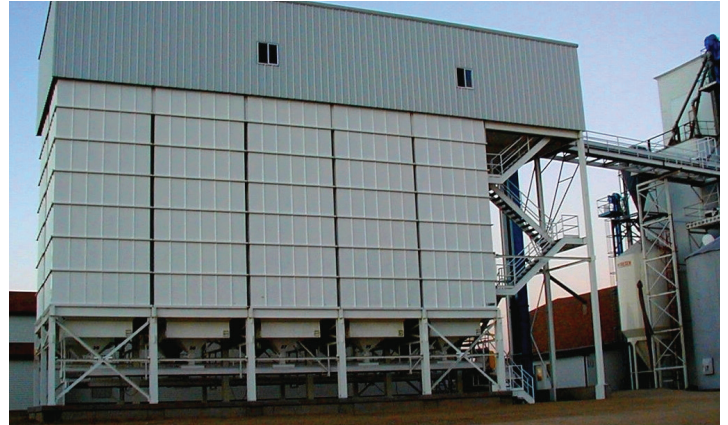

All systems can be custom designed to fit the requirements of your specific facility.

QUALITY CONSTRUCTED BINS WITH WELDED SEAMS KEEPS PRODUCT IN AND THE WATER OUT

The welded steel bins, which can hold up to 4,000 bushels, can be customized to hold, unload, measure and mix corn, soybeans, DDG's, meal, coal, plastic molding beads and other types of flowable product for feed mills, elevators, seed companies, ingredient and food processors and other sites requiring load-out bins.

Outstanding Features:

- ◆ Hopper bottom for efficient load-out of bin contents
- ◆ Flat sidewalls allow layout of a cluster or string of multiple bins
- ◆ Built as a single welded unit allowing for ease of delivery and installation
- ◆ Capacity up to 4,000 bushels or 100 tons of 40 lb material
- ◆ Multi-compartment dividers available for content separation
- ◆ Square bin design accommodates concrete or steel building enclosures
- ◆ Vibrator mounting brackets for aiding the flow of bin contents
- ◆ Manual, air and electric gate options available to match hopper opening
- ◆ Bin design accommodates ingredient weighing and mixing processes
- ◆ Food grade epoxy available for interior of bin
- ◆ Customized to fit site application
- ◆ Standard colors include gray, white or black (color match and galvanizing also available)
- ◆ Optional parts include ladder systems, rest platforms, stairs and bean ladders
- ◆ Delivery service available for transporting bin to site
